Properties
- Contains Aloe vera and Care P
- Aloe vera has inherent biocidal property
- Alcohol-free
- Gel form
- Doesn’t spill
- Dries quite quickly
- Long lasting effect
- Need not be rinsed

Advantages
- Non-toxic, high level disinfectant, free from Acrylamides, Gluconates
- Accepted as Secondary Direct Food Additive for human consumption (CFR-21, Article 173.370, September 2003 USFDA)
- Proven Virucide / Bactericide / Fungicide / Sporicide / Algicide at low concentrations
- Has long lasting effect (up to 3 hours after application)

Areas of Application
- Care P Hand disinfectant is an alcohol free gel which is ready to use in all areas where hygiene is concerned
- Can be used as an alternative where alcohol based sanitizers are feared to be used
- Safe for children, pregnant women and lactating mothers
- Can be used in hospitals, ambulances, operation theatres, intensive care units, schools, offices, malls, laboratories, hotels, kitchens etc.

Directions for use
Care P hand disinfectant is rubbed undiluted on to the palms. Make sure that the palms and hands are completely covered during the application time and special attention towards the fingertips and thumbs. Use dispensers to dispense the disinfectant for best hygienic conditions.
